Daryl,

I thought we were going to move to the new parts and not use up all the old stock in case somebody wanted/needed replace

Just a little curious, why we are going backwards??

Harvey

Can you please provide a standard email that we can use to make D4634-xxx panels at Rev. F until old stock parts are used up
We will also need same type document to produce D4635-xxx panels as per Rev. E until old stock parts are used up.
We will not use unmatched parts (old/new on same set panel) as old stock diminishes.

Daryl
